

Phoenix Dual Spindle ID Grinder

Major supplier to the semi-conductor industry selects the Weldon Phoenix with 22" swing capacity, programmable C-axis featuring Heidenhain linear and rotary scales, and dual spindle capability for a challenging grinding application. Large plates made of a proprietary silicon based material require OD, ID, face, and angle grinding to exacting specifications.

Heavy-duty workhead with custom vacuum chuck assembly

Two GMN 150mm 24,000 RPM spindles with diamond grinding wheels

Spindle set at a 5 degree angle for face grinding operation

FANUC
Robotics

**Authorized
System
Integrator**

Weldon Solutions offers a full line of CNC OD, ID, and combination grinders. As a Fanuc Robotics integrator Weldon can also address your machine tending, material removal, material handling, and packaging/palletizing needs.

QUALITY, Over and over again
